Education

| | | |
|---------------------------------|---------------------------------------------------------------------------------------------------------------|-----------|
| Ph.D. (In Progress) | University of Saskatchewan Advisor: Dr. Regan L. Mandryk <i>Transferred from M.Sc. to Ph.D. in 2017</i> | 2015- |
| B.Sc. Soft. Eng. Honours | University of Saskatchewan B.Sc. Software Engineering Honours | 2011-2015 |

Expertise

Research Expertise: User study design and implementation, crowdsourced user research, software development for research studies, data collection and analysis, digital communication tools.

Technical Expertise: HTML/JavaScript/TypeScript/CSS, C#, Java, Android/iOS, Unity.

Teaching Experience

| | | |
|---------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|------------|
| Instructor University of Saskatchewan | <i>CMPT 215 – Intro to Computer Organization and Architecture</i> Hardware components, assembly and machine language. | 2019 |
| Instructor University of Saskatchewan | <i>CMPT 481 – Human-Computer Interaction</i> Design, implementation, and evaluation of interfaces. | 2017, 2018 |
| Instructor University of Saskatchewan | <i>CMPT 381 - Implementation of Graphical User Interfaces</i> Theory of interfaces, Android & JavaFX interfaces | 2016 |
| Teaching Assistant University of Saskatchewan | Multiple computer science courses (including data structures, web development, and assembly language programming) | 2014-2021 |

Employment Experience

| | | |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Research Intern Microsoft Research, Seattle | Created software for collecting audio comments on public videos, developed a processing pipeline for audio comments, and conducted a user study of the system. | 2017 |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|------|

| | | |
|---------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| Research Intern Microsoft Research, Seattle | Designed and implemented software for scalable text chats in live streams, resulting in a US patent. Conducted a user study and published results at the SIGCHI 2017 conference. | 2016 |
| Research Assistant University of Saskatchewan | Developed web-based video chat system and conducted multiple online crowdsourced experiments using the custom chat system. Contributed to development of a synchronous game played over a video chat system. | 2015 |
| Research Assistant University of Saskatchewan | Developed physical exertion games for research studies. Contributed to conference papers. | 2014 |
| Research Assistant University of Saskatchewan | Developed Kinect games for wheelchair-based interaction. Contributed to conference papers. | 2013 |

Professional Involvement

| | | |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------|------------|
| Live Streaming Co-Chair ACM SIGCHI | As a member of the organizing committee, implemented live streaming for 16 parallel tracks at the CHI conference. | 2018, 2019 |
| President CSGC | As president of our graduate student committee, organized events including a research poster festival for CS students. | 2018-2020 |

Academic Funding and Awards

| Name | Value | Type | Time Held |
|-------------------------------------------------------------------|----------------------------------------------|----------|-----------|
| Alexander Graham Bell Canada Graduate Scholarship-Doctoral | \$105,000 over 3 years | National | 2018-2021 |
| University of Saskatchewan Dean's Scholarship | \$66,000 over 3 years, declined after 1 year | National | 2017-2018 |
| Geddes Graduate Scholarship in Computer Science | \$2,500 | Local | 2017 |
| NSERC Canada Graduate Scholarships-Master's | \$17,500 | National | 2015-2016 |
| NSERC Undergraduate Student Researcher Award | \$12,000 | National | 2015 |
| NSERC Undergraduate Student Researcher Award | \$12,000 | National | 2014 |
| NSERC Undergraduate Student Researcher Award | \$12,000 | National | 2013 |
| Greystone Scholarship | \$3,000 | Local | 2011 |
